Institute of Therapeutic Innovations and Outcomes

Our Purpose, Vision and Mission

Purpose:
The complexities and costs of health care and medication therapies are rising each year. Therapeutic innovations and implementation of high quality treatment strategies can enhance health outcomes and reduce health care costs. The Institute of Therapeutic Innovations and Outcomes (ITIO) will stimulate the development, evaluation and implementation of therapeutic innovations, and dissemination of knowledge through education, publications, and outreach.

Vision:
We are committed to being a global leader in therapeutic innovations, providing excellence in education, research and dissemination of knowledge.

Mission:
The ITIO develops and evaluates therapeutic innovations, leveraging our expertise to provide education, research and the dissemination of knowledge to impact clinicians and decision makers. We are committed to improving therapeutic outcomes, quality and value.

Membership Benefits
Faculty and staff with interests similar to the Institute’s can become members of the Institute. The membership criteria were developed by the ITIO Oversight Committee and members are selected by this committee.

Benefits Include:
- Access to infrastructure with expertise that can provide resources, education and training to increase efficiency and effectiveness
- Availability of comprehensive patient databases
- Expanded collaborations and networking
- Increased opportunities to obtain competitive funding
- Enhanced scholarly activities (publications and presentations)
- Improved knowledge of PBM and benefit designs
- Participation in educational activities
- Mentoring opportunities
- Resources for trainees
- Investing in members through learning communities
