Opportunities for Pharmacists:
Expanding Medication Therapy Management in Community Health Centers
ACPE UAN: 0633-0000-18-001-L04-P (Knowledge) – 1 hour of CE (0.1 CEU)

Description
By connecting pharmacists, Community Health Centers, professional organizations, colleges of pharmacy, and public health partners, Ohio is expanding the role of pharmacists to improve care for underserved populations. Join Jennifer L. Rodis, PharmD, BCPS, FAPhA; Assistant Dean for Outreach and Engagement at The Ohio State University to learn about the impact pharmacists are having on diabetes and hypertension and how you can get involved in this initiative.

Learning Objectives
1. Describe a 5-year, CDC-funded project to enhance pharmacist-provided care to underserved populations in Ohio.
2. Share various models of pharmacist staffing and services to address uncontrolled diabetes and hypertension.
3. Discuss options and opportunities to network pharmacists caring for underserved populations across the state of Ohio and the country.

Tuesday, June 12, 2018
11:30 a.m. - 12:30 p.m.
Ohio Pharmacists Association
2674 Federated Blvd, Columbus, OH 43235

Presenter
Jennifer L. Rodis, PharmD, BCPS, FAPhA
